Russell holds a Certificate IV in assessment & Workplace Training. With over 12 years experience instructing and training in Sales, Communication and Self Development, he provides personal and business training and coaching in Communication, Goal Setting, Sales and Success Psychology

WHAT OTHERS SAY ABOUT EFT

“After years of conventional counselling to help cope with the trauma of sexual abuse as a child, I realised I was still suffering from a lot of negative emotions, that were keeping me from being happy. I went in search of something that would bring peace into my life. EFT has done that for me. The emotional blockages associated with sexual abuse have gone! I have discovered a sense of self and now have peace and joy in my life”.

Katherine, Melbourne, Business Owner and Mother of four

“... I am writing just to tell you that the one phone session that I had with you earlier this year on getting good results in my counselling studies, worked like a treat. I ended up getting 5 out of a possible six distinctions in my course work for the year.

Sandy Therry Dip Tch, Grad Dip Counselling, NLP

“EFT is amazing, I’ve been looking at this piece of chocolate all day and I haven’t eaten it, I don’t even want it. I never could have done that before... I recommend this powerful experience in a nurturing, sharing group environment. I’ve gained wonderful insights, awareness and tools for my Self Development.”

Ken Bone. Melbourne, Proprietor Urban Foliage.

“I came to see Russell about relationship issues. Imagine my surprise when the shoulder pain that had kept me out of work for 2 years was gone within 30 minutes. I cancelled the surgery and haven’t looked back”.

Sally Richards. Sales Executive

“After a long period of unemployment Russell has helped me clear the way for the role I desired using a range of my skills and also in the location I love to work at; close to water & close to home.

I am on a contract and I did not even have to negotiate a fabulous daily rate. After I cleared my childhood issues I received a call regarding my ideal role the following day. That’s how quick it all works! I would have never believed it and am now working on meeting my ideal life partner. Hooray!!

Thanks Russell! G. P” Systems Analyst
